Aubrey, Texas

PROFESSIONAL SUMMARY

I build digital products that help people communicate. With a background in Cloud Tech (Microsoft) and Product Recovery (IKEA), I focus on making apps that are simple to use and solve real problems.

PROJECT: JOK-ENG.COM (Founder & Designer)

A web app for non-native English speakers to learn through stories.

- **Design:** Used Figma to build a clean UI for creating custom English scenarios.
- **Problem:** Most textbooks are boring. I used AI to make learning personal and fun.
- **Future Goal:** Interview 50 users to find and fix "confusing" parts of the app to improve speed.

EXPERIENCE

IKEA - Product Recovery

Frisco, Texas
07/2024- Present

- **Fixing:** Analyzed why products broke and found the best way to fix or recycle them.
- **User Behavior:** Observed how people interact with physical items to improve product quality.

Microsoft Azure - Support Engineer

Irving, Texas
12/2018 – 12/2019

- **Troubleshooting:** Helped developers fix broken web apps and hosting issues.
- **Clarity:** Explained complex cloud problems in simple steps for clients.

SKILLS

- **Design:** UI/UX, Figma, User Research, Prototyping.
- **Tech:** Azure Cloud, HTML/CSS, Javascript, React, Vercel, MongoDB.
- **AI:** Using AI for content and UX improvement.
- **Languages:** English, Korean

EDUCATION

Master in Fine Art & Technology (User Interface and Experience Design)

UThe University of Texas at Dallas

B.S. in Aerospace System Engineering

Korea Aerospace University
